

MILK STORAGE TANKS

SNOW BRAND MILK PRODUCTS

- Markets: Farming & Agriculture
- Country: Japan
- Courtesy of: Superior Products Japan

PROJECT DESCRIPTION

Application to a milk storage tank with the standard application of SUPER THERM (400 μ WFT / 250 μ DFT) was applied at the Kyoto Plant. Based on these initials results the company went on to treat more tanks in other plants throughout Japan.

Farming & Agriculture Market

RESULTS

The surface temperature of the tank coated with SUPER THERM was 7.5°C lower than the uncoated tank.
