

POTATO CHIP & FRIES MANUFACTURER

MUYSHONDT POTATO FACTORY

- Markets: Industry & Manufacturing
- Country: Belgium
- Courtesy of: Superior Products Europe

PROJECT DESCRIPTION

Surface: Stainless steel cover of steamer
Purpose: Prevent heat radiation and save energy

COATING SOLUTION

Cleaning, sanding, 1 layer RUST GRIP for adherence, followed by HOT SURFACE COATING in 3 layers (total thickness 4-5mm). When dry, sealed with flexible waterproof membrane ENDUROOF AR.

RESULTS

Initial surface temperature: 77.7°C
After 4-5mm HOT SURFACE COATING: 53.1°C
Reduced surface temperature by 31.6%
