

CUSTOMS COASTAL PATROL VESSEL

GERMAN COAST GUARD

- Markets: Shipping & Transport
- Country: Germany
- Courtesy of: Superior Products German

PROJECT DESCRIPTION

A customs patrol vessel of the German Coast Guard needed to be treated to protect the inside of the vessel from condensation.

Shipping & Transport Market

COATING SOLUTION

The following coating solutions were applied where necessary: MOIST METAL GRIP in wet areas (grey) followed by 4 mm HOT SURFACE COATING with a top coating of ENAMO GRIP.

RESULTS

Room temperature before coating:

- Monday, 8.30 = 13.5°C
- Outer wall temperature before = 10 – 11°C
- Humidity = 80.1%
- On the coating outer wall temperature = 15 – 16°C
