PROJECT DESCRIPTION

The scope of work was to coat six sets of sailboat hardware (mast, boom, and spreaders), to protect the carbon fiber/epoxy resin composite material from UV. Each mast is 118 feet tall.

The six boats are among the best sloop rigged ocean racers, and will be used for corporate events and official races.

COATING SOLUTION

ENAMO GRIP CLEAR in the HIGH GLOSS version was applied in different layers.

PRODUCTS WE USED

[Enamo Grip](#)
