

COMMERCIAL BUILDING

DUBAI MARINA SHOPPING MALL

- Markets: Warehouse & Buildings
- Country: Dubai
- Courtesy of: Superior Products UAE

PROJECT DESCRIPTION

The purpose of the project was to reduce the temperature inside the building. In the region, buildings suffer from intensely hot daytime temperatures, resulting in exorbitant air-conditioning costs.

COATING SOLUTION

Application to the roof was the standard application of SUPER THERM (400µ WFT / 250µ DFT) done in 2 layers.

PRODUCTS WE USED

Super Therm®
