

FROZEN FOOD PRODUCER

PASFROST

- Markets: Warehouse & Buildings
- Country: Belgium
- Courtesy of: Superior Products Belgium

PROJECT DESCRIPTION

Surface temperature before Application:

- On roofing = 51°C
- Average outside conditions = clouded
- Average outside temperature = 26,5 °C

Customer decided to insulate its plant with SUPER THERM to prevent outside heat penetration.

COATING SOLUTION

Application of 250 micron SUPER THERM.

RESULTS

Surface temperatures after application on roofing = 27°C.
